Brainstorm & idea prioritiza

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you might not be sitting in the same room.

- 10 minutes to prepare
- 1 hour facilitation
- 2-6 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering
Gather who should participate in the session and send an invite. Share relevant information in person's ahead.

Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
The commercial banks at present do not have any machinery to ensure that their loans and advances are in keeping into productive use in the larger public interest. Due to a high proportion of outstanding due to banks from borrowers they are bearing huge losses...

Key rules of brainstorming

To ensure smooth and productive session

- Stay to topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP: You can select a sticky note and hit the pencil (unlock to sketch) icon to start drawing.

| Person 1 | Person 2 | Person 3 | Person 4 |
| Person 5 | Person 6 | Person 7 | Person 8 |

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

TIP: Add customizable tags to sticky notes. Locate & create to find, browse, organize, and categorize important ideas as themes within your work.
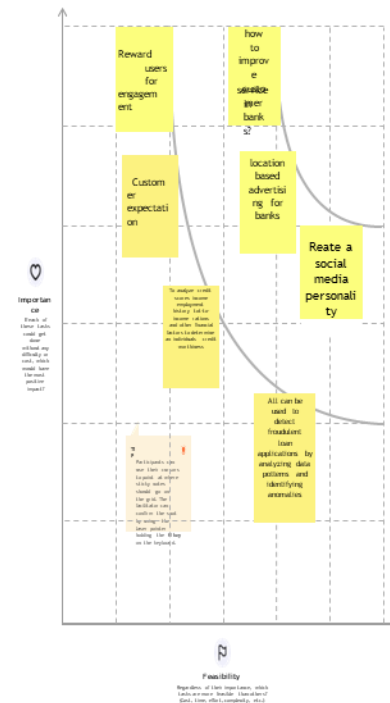

To analyze credit scores income employment history tept-to-income rations and other financial factors to determine an individuals creditworthiness

All can be used to detect froudulent loan applications by analyzing data pottems and identifying anomalies
